Science Behind the Ingredients

Every formula within the **Anderson Silva A D Xtreme**lineup is backed by peer reviewed research. Citrulline malate increases nitric oxide production, enhancing blood flow and delivering nutrients to working muscles. The Post Workout Recovery Complex's BCAAs are critical for muscle protein synthesis, while glutamine aids in immune function and gut health.

"I've tried countless pre workout supplements, but the Anderson Silva blend gave me the clean, sustained energy I needed for my 90 minute sessions," says Maria Gomez, a competitive CrossFit athlete.
