Overview of “Sure Thing”

Premise

“Sure Thing” is a one-act play that centers on a chance encounter between two strangers, **Alex** and **Jordan**, who meet at a coffee shop. As they talk, a magical device called the “Reset Button” allows them to rewind their conversation whenever one of them says something that triggers the button. The play unfolds as a series of alternating scenes, each resetting the dialogue to the point before the trigger, giving the characters a new opportunity to say the right thing.

Length and Format

The play is typically performed in under 30 minutes and requires only two actors and a simple set—a coffee shop table. Its brevity and minimal requirements make it a popular choice for schools, community theaters, and professional companies alike.

Title Significance

The title “Sure Thing” reflects the paradox at the heart of the play: the desire for certainty in a conversation that is inherently uncertain. The phrase also hints at the comedic potential of repeatedly attempting to "get it right."

Themes and Motifs

Communication and Miscommunication

At its core, the play examines how we communicate. It highlights how small words can have outsized effects and how we often wish we could go back and choose our words more wisely.

The Role of Chance

The Reset Button introduces an element of chance, suggesting that our lives are a series of possible paths, each dependent on the decisions we make—or the words we say.

Self-Reflection and Growth

Through each reset, the characters learn something new about themselves and each other, illustrating that growth often comes from repeated attempts and the willingness to listen.

Humor as a Vehicle for Insight

While the play is comedic, the humor serves as a vehicle for deeper insight. Ives uses wit to make the audience reflect on their own conversations and the importance of empathy.

Structure and Format

Scene Breakdown

1. Opening Scene: Alex and Jordan meet, and the Reset Button is introduced.
2. First Reset: A miscommunication triggers the button, and the conversation restarts.
3. Second Reset: A new topic arises; the conversation is again interrupted.
4. Third Reset: The characters begin to understand each other better.
5. Final Scene: The Reset Button is no longer needed; the conversation flows naturally.

Use of Repetition

The repeated resetting creates a rhythmic structure that mirrors the human tendency to replay conversations in our heads. Ives leverages this repetition to build tension and release, culminating in a satisfying resolution.

Minimalist Stage Directions

Stage directions are concise, focusing on the essential actions—“Press Reset,” “Sit,” “Stand”—allowing actors to improvise within the framework and keeping the audience engaged.

Character Analysis

Alex

Alex is a young professional, cautious yet hopeful. He embodies the modern individual’s desire to connect but also the fear of missteps. Alex’s dialogue is often tentative, reflecting his internal uncertainty.

Jordan

Jordan is slightly more outspoken, providing a counterbalance to Alex’s hesitancy. Jordan’s lines are often witty, but his attempts to be direct sometimes backfire, prompting the resets.

Dynamic Interaction

As the play progresses, Alex and Jordan's dynamic shifts from awkward to intimate. The Reset Button becomes a metaphor for their willingness to listen and adapt.

Dialogue Style and Linguistic Play

Rapid-Fire Exchanges

Ives employs a conversational rhythm that mirrors real-life dialogue, complete with interruptions, pauses, and overlapping speech. This style keeps the pacing brisk and the audience on their toes.

Wordplay and Puns

The play is peppered with puns, double meanings, and linguistic twists. These elements add humor while underscoring the theme of miscommunication.

Self-Referential Humor

Occasionally, the characters break the fourth wall by acknowledging the Reset Button or commenting on the absurdity of their situation. This self-awareness invites the audience to reflect on the artificiality of the narrative.
